

DIGEST-MIN With DIGESTIN™

Biovet Digestmin™ is an addition to horse's feed where 1:1 Calcium Phosphorous and trace minerals are indicated. It also contains no prohibited substances and may be used during racing and competition.

BENEFITS:

Biovet Digestmin™ provides Calcium and Phosphate in a one to one ration, which has been found to be the most desirable for horses in nearly every part of the world. In addition, this product contains minerals including Zinc, Copper, Magnesium, Manganese and Cobalt in proportions which are known to be the most effective. There is also a small amount of Polysaccharide Iron Complex to compliment the other minerals in this preparation. It is recommended that brood mares in foal be fed 1.16 ounces daily during the last 30 days of pregnancy and throughout the first two or three months of lactation. This helps to insure an adequate supply of minerals to the growing and nursing foal. At weaning, young horses should receive 1.16 ounces daily, and this should be continued throughout the first two years of growth.

Biovet Digestmin™ also contains Digestin™, a microbiologic source of Lactobacillus Acidophilus, Lactobacillus Plantarum, Lactobacillus Casel, Lactobacillus Brevis, Lactobacillus Fermentum, Pediococcus. Digestin™ improves assimilation of micronutrients and maintains proper micro intestinal flora. Contains no prohibited substance. May be used during racing and competition.

GUARANTEED ANALYSIS:

Each 1.16 oz. (33.1g) contains:

Vitamin D	3,000 I.U.
Calcium	Minimum 11.6%
	Maximum 13.6%
Phosphorus	Minimum 10.3%
Potassium	Minimum 1.75%
Iron	175 PPM
Zinc	1750 PPM
Copper	350 PPM
Manganese	65 PPM
Cobalt	7 PPM
Iodine	4 PPM
Digestin™ (Lactobacillus Acidophilus, Lactobacillus Plantarum, Lactobacillus Casel, Lactobacillus Brevis, Lactobacillus Fermentum, Pediococcus).....	300,000,000 CFU

INGREDIENTS: Vitamin D, monoCalcium Phosphate, Calcium Carbonate, Lactobacillus Acidophilus, Lactobacillus Plantarum, Lactobacillus Casel, Lactobacillus Fermentum, Pediococcus, Magnesium Sulfate, Potassium Chloride, Zinc Sulfate, Manganese Sulfate, Cobalt Sulfate, Potassium Iodide, Dextrose, Copper Sulfate, Vegetable Oil, Polysaccharide Iron Complex.

Each Dose contains: 1.16 ounce (33.1g)

DIRECTIONS: The above highly palatable, concentrated mineral formula is administered as a supplement to the horse's regular diet as follows:

Growing horses: 1.16 oz. Daily

Mature horses: 1.16 oz every other day;

Lactating mares: 1.16 oz. daily or as prescribed by Veterinarian.

For best results, mix with the horse's feed.

FOR EQUINE USE ONLY KEEP OUT OF REACH OF CHILDREN

*TARGET USE

- Balancing mineral Intake
- Brood Mares
- Foals: Before & after Weaning

PACKAGING:

30/1.16 oz. Packets Per Bucket; 4 buckets/case

104.4 oz. (90 Doses) / with 1.16oz. measure

522 oz. (450 Doses) / with 1.16oz. measure
