

XS Flex S.O.D.™

DESCRIPTION:

XS-Flex(SOD)™ is a combination of the major biologic antioxidants, which are ingested in feed or manufactured in the body. These are Vitamins C and E, plus the enzymes SOD™ and Catalase. Although Selenium is also in this category, it is not included in this formulation because the requirements are minimal and the danger of Selenium toxicity is very real.

Although Vitamin E is theoretically ingested in adequate quantities, the loss of Vitamin E in poor or stored hay and the breakdown of tocopheryls in stored feeds often make the supply inadequate. This, combined with the increased demands during exercise, makes the addition of these vitamins necessary in many horses. The same could be said for Vitamin C because it is synthesized in the intestinal tract. The increased demand during stress, inadequate formation due to feeding practices, and changes in intestinal motility makes the addition mandatory during stress situations.

BENEFITS:

XS-Flex™ is a safe nutritional supplement designed to assist the animal's body in metabolizing harmful free radicals. It is gentle on the digestive tract and does not typically cause GI problems, as aspirin and non-steroidal anti-inflammatory drugs have done. XS-Flex™ may be administered for any condition thought to be associated with a free radical disorder, such as chronic inflammatory response. It may also be given as general anti-oxidant nutritional therapy and may be given in conjunction with other nutritional supplements, such as vitamins and minerals.

GUARANTEED ANALYSIS:

Each single 1 ounce packet contains:

Vitamin E	3,000 I.U.
XS-Flex(SOD)™	3,000 mcg
Catalase.....	3,000 mcg
Ascorbic Acid.....	3,000 mg
Glucosamine HCL.....	2,000mg
Hyaluronic acid*60mg

INGREDIENTS: Superoxide Dismutase, Sodium Catalase, Vitamin E, Ascorbic Acid, Glucosamine Hydrochloride, Hyaluronic acid (lipid coated), Dextrose, Butterscotch Flavoring.

NET CONTENTS 1 ounce (28.4 grams)

DIRECTIONS: Feed one packet daily, or as recommended by your veterinarian. For best results, mix contents with horse's feed.

**FOR EQUINE USE ONLY. KEEP OUT OF REACH OF CHILDREN.
STORE IN A COOL DRY AREA.**

PACKAGING:

- 30 / 1oz. packets per box; 4 buckets/case
- 90 oz. / with 1 oz. measure
- 450 oz. / with 1 oz. measure
